CAREER SUMMARY

Experienced Full Stack Professional in a relentless pursuit of excellence, with a track record of working in a fast-paced and competitive environment. Seeking new challenges and continuous growth.

EXPERIENCE

Infosys Limited | Specialist Programmer (Aug'21- Present)

- Developing **Microservices** APIs for various functionalities.
- **Integrating API to UI** and implementing functionalities for user interactions.
- As part of **agile** team, developed a **MVC application** which can perform CRUD operations.
- Suggested the use of **stored procedures** to enhance the reusability of code and efficiency of the team.
- Experience in ETL processes using **SQL** queries on IICS.
- Revamped and **optimized** ETL pipelines which ultimately improved the quality of deliverables by almost 30%.

PROJECTS

TrekLicious | MERN

[\(Live\)](#)

- Developed a preference-based **full-stack** web application with a user-friendly interface that caters to trek lovers.
- Implemented user authentication system using **JWT**, allowing users to securely signup, login and update their profiles.
- User can also create a favorite list and add/remove items from their list.

RatVenture | ReactJS, NodeJS, ExpressJS, Javascript

[\(Live\)](#)

- Visualization of famous **Rat-In-A-Maze** problem.
- Engineered an interactive interface for users to **dynamically configure** matrix dimensions, starting point, blocks, and destination point.
- User will be able to see all the viable routes from starting point to destination point.

GrillZilla | ReactJS

[\(Live\)](#)

- A **frontend application** to show the menu of the restaurant incorporating API integration.
- Using **Google Maps API** user can see the directions to the restaurant location from his/her.
